OUR MISSION  The Mission of Shorter University is to provide quality higher education, enabling and encouraging student commitment to active, life-long learning; personal spiritual values; responsible citizenship; and community and societal leadership in a global context.

The University seeks to accomplish this Mission through quality undergraduate liberal arts programs, specialized professional programs, and select graduate programs.

The University affirms a commitment to the Christian faith and strives to integrate Christian values within a nurturing community in its whole process of education.

The degree prepares the student for positions with clinics, hospitals, government agencies, non-profits, and other organizations that assist at-risk populations. Students will gain an understanding of the human developmental process and will learn to use their diagnostic skills to analyze and to manage behavioral issues. Students will also gain an understanding of global and domestic problems, cross-cultural differences, diversity, as well as the ethical responsibilities of their profession.
